MEMORANDUM

DATE: JUN 04 1991

SUBJECT: Review of the Response to Comments from the Collierville  
(Carrier A.C.) Site Draft RI

FROM: Winston A. Smith, Director  
Air, Pesticides and Toxics  
Management Division

*W. A. Smith*

TO: Donald J. Guinyard, Acting Director  
Waste Management Division

As requested by Beth Brown, we have reviewed the Collierville Site documents. The primary concern for air at this site is the potential health risks resulting from the proposed air stripper and emissions from volatilized soil and groundwater. However, this concern was adequately addressed in the site document and therefore we have no comments.
